

Chapter 1

Code Sample

```
define page editUser (u : User) {  
  title { "Edit User: " output(u.name) }  
  section {  
    header { "Edit User: " output(u.name) }  
    form {  
      par { "Name: " input(u.name) }  
      par { "Password: " input(u.password) }  
      par { action("Save Changes", saveUser()) }  
    }  
    action saveUser() {  
      u.persist(); return viewUser(u);  
    }  
    navigate(home()) { "return to home page" }  
  }  
}
```
